JOHNSON C. SMITH UNIVERSITY

Charlotte, North Carolina

Foreword

THE BULL 2007

For the 2007 edition of "The Bull" we strove to present you a thorough page-by-page record of the culture of our beloved Johnson C. Smith University and its students. We also give you a history of what the past academic year brought those who were here on campus, either working or studying.

The Staff who worked on the pages that lie before you made certain that pictures were taken, names were spelled correctly, and major stories and important people at Smith were given their proper place in history, all done in light of this year's theme "Looking Forward to Looking Back." Again, there should be no doubt that as long as the copies of this edition remain, what has been recorded on these pages has the chance to be remembered forever by each owner and his or her friends and family.

All pages except for the index are in full-color with a gold or blue background, and most have a gold/blue banner at the top in honor of the school's colors. The book's size is 9 by 12 inches with our mascot on the cover emphasizing the renewed use of the official title. The aim was for this edition to demonstrate the creativity and skills of students in yearbook publishing.

"The Bull" has been published by Johnson C. Smith University since 1928, with the exception of the years 1936 through 1946, due to the Great Depression and World War II. We present to students, alumni, employees, and friends with the 79th volume of "The Bull." We truly hope that this book will provide much enjoyment and many memories for years to come!

To Mrs. Odessa Roseboro

"An extended voyage or adventurous wandering"

Mrs. Roseboro you have been here with us for so long. After graduating from North Carolina Central University you have served Johnson C. Smith University for over 50 years. From the Admissions Office to the President's Office and, now, in the Alumni Affairs Office, you've been in many departments toiling away, essentially, for the benefit of JCSU students. We thank you! You are a dynamic force who supports administration, faculty, and staff as well.

"Everyone loves her. She's a model for the business of JCSU. She is one of the most dedicated and genuine people I know." --- Dr. Maxine Moore, Associate Professor of English

"I'm glad she's in my office. She is an asset to Alumni Affairs because of the length of time she's been here. She's committed to working and is always available to help out anyone in need." --- Mr. Ron Matthews, Director of Alumni Affairs

A loyal and dedicated member of the University's family, you move expeditiously to take care of our needs. And so, we proudly dedicate this meticulously done edition of "The Bull" in honor of your work ethic and service.

We love you, Mrs. Odessa Roseboro! Here is to many more years of service!

To The Class of 2007

"Memories don't live like people do, they always remember you, when your days are good or bad its the memories that you had; all we have is each other, let's not take that for granted and remember everything we went through together from day 1 to now, and lets not forget where we came from."

Continue to hold on to life, as you have throughout your four years at Smith. You now know that you can persevere through a lot. Your degree proves that. Apply your education and your experiences so you can steadily move toward betterment.

You may not be all that you want to be today, but work toward it for tomorrow and know that you have come along way through pain, tears, and sweat; and with joy, friendship and support.

Don't regret any of it, because all of it has brought you thus far.

Go forward into the world with fortitude, thanks, joy and love and you will succeed.

Whether you move on to work in the boardroom (as a CEO), the classroom (as a teacher), the courtroom (as an attorney), the emergency room (as a doctor), the IT room (as a systems analyst), the corner office (as a business manager), your own room (as a business owner), or somewhere on the campus of JCSU, if you confidently and effectively apply your mind, body and soul to your labor you will live a happy and rewarding life.

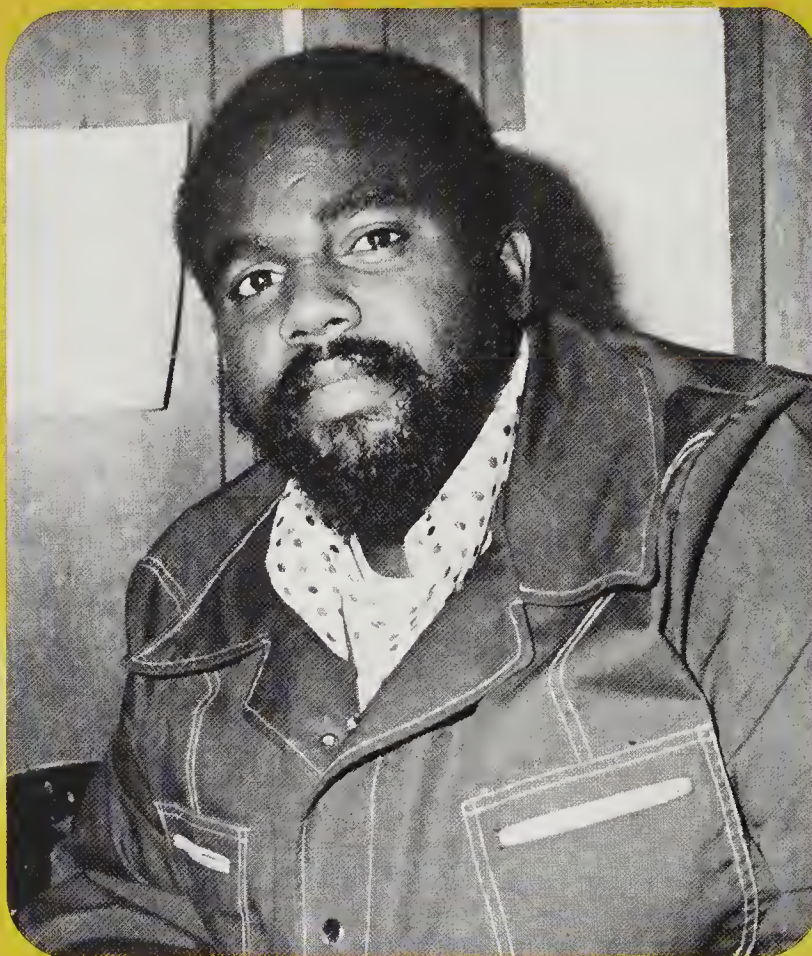

Your times and experiences at Smith have sufficiently prepared you for the good and the bad. Your education has prepared you to be an effective member of society. Your many memories from Smith will stay with you forever, and when you come back for Homecoming and others' graduations you can share the good times with old friends, while making new ones.

Keep a reliable and loving network of friends and family around you, and be that reliable, loving network for others, too, giving back what has been given to you. And don't forget good ol' JCSU. Nothing truly wonderful can be done alone.

With that said, this 2007 edition of "The Bull" is dedicated to the graduating seniors at Johnson C. Smith University!

Biddle Memorial Hall

Looking Forward to Looking Back

Biddle Memorial Hall is the oldest structure on campus, constructed between 1883-1884 at a cost of \$40,000, and was named the "University Administration Building" under the leadership of the first president, Dr. Stephen Mattoon. It received its current name in 1923 when the University's name changed from Biddle University to Johnson C. Smith University under the fifth president, Dr. Henry L. McCrorey, and in 1925, the clock tower was installed at a cost of \$6,025. Biddle is the surname of the school's first major donor, Mrs. Henry J. Biddle; her husband died in 1862 while fighting for the Union in the Civil War. Under the current president, Dr. Dorothy Cowser Yancy, the third major renovation on Biddle commenced in 2002 by Gantt Huberman after \$6.7 million was raised, and was completed in 2005.

JCSU History

THE BULL 2007

In 1867, the Reverend S. C. Alexander and the Reverend W. L. Miller saw the need to establish an institution to educate freed persons in one section of the South [and as a result, plans were devised] to secure the [institution]. The movement for the school was formally inaugurated on April 7, 1867, at a meeting of the Catawba Presbytery in the old Charlotte Presbyterian Church.... The two ministers were elected as teachers.

Information about establishing the school was brought to the attention of Mrs. Mary D. Biddle, a devout churchwoman of Philadelphia, Pennsylvania, who...pledged \$1400. In appreciation of this first and generous contribution, friends of the project requested of Mrs. Biddle permission to name the newly established school after her late husband, Major Henry Biddle...

Colonel W. R. Myers, a wealthy Charlottean, donated the first eight acres of land...for the school. From 1867 to 1876, the school was known as the Biddle Memorial Institute. In 1876...the name of the school became Biddle University. The institution operated under this name until 1923.

Also in 1924, the institution was recognized by the North Carolina State Board of Education as a four-year college.... In 1932, the University's charter was amended, providing for the admission of women to the senior division [thereby making the institution] partially coeducational. In 1941...the University was a fully coeducational institution.

Johnson C. Smith University joined the United Negro College Fund in 1944. The institution's membership in the fund began to bear fruit immediately.... Through increasing support from the Duke Endowment, the United Negro College Fund, and other sources, the period between 1955 and 1968 was one of expansion of the physical plant and enrichment of the curriculum. Seven new buildings were erected during this period.... Since 1968, structures have been erected or renovated: ...Greenfield Hall, [the] Newsom Humanities Building, the Robert L. Albright Honors College...and the Irwin Belk Complex.... A complete renovation of Biddle Hall was completed April 2005.

The present site contains 100 acres of land and 39 buildings. The University has approximately fifteen hundred students and over 250 full-time faculty members, administrators, and staff members for administrative and support services.

Increasingly aware that today's demand for truly educated men and women is the most pressing in history and that quality and versatility are prerequisites to equal opportunity for all, Johnson C. Smith faces the challenge of its second century with new vision and a calculated plan of action.

Founded in 1867 under the auspices of the Committee on Freedmen of the Presbyterian Church, USA, Johnson C. Smith University is an independent, private, coeducational institution of higher learning. Located in the rapidly growing metropolis of Charlotte, North Carolina, the "Queen City of the South," this historically Black university has a residential campus with a familial atmosphere in which students are stimulated and nurtured by dedicated, caring faculty and staff. Consistent with its Christian roots, the University recognizes the importance of moral and ethical values to undergird intellectual development and all endeavors. Johnson C. Smith believes in the unrelenting pursuit of knowledge and the value of cultivating the life of the mind. The University assigns great significance to the development of self-confidence, to the understanding of one's own heritage as an awareness of the cultures of others, to the exploration of the myriad forces affecting people of this complex, technological age, and to the formulation of a sense of one's role in this schema.

The mission of Johnson C. Smith University is to provide an outstanding education for a diverse group of talented and highly motivated students from various ethnic, socioeconomic, and geographical backgrounds. Johnson C. Smith offers a liberal education in conjunction with concentrated study in specialized fields in preparation for advanced study and specific careers.

The University endeavors to produce graduates who are able to communicate effectively, think critically, learn independently as well as collaboratively, and demonstrate competence in their chosen fields. Further, it provides an environment in which students can fulfill their physical, social, cultural, spiritual, and other personal needs and in which they can develop a compelling sense of social and civic responsibility for leadership and service in a dynamic, multicultural society. Likewise, the University embraces its responsibility to provide leadership, service, and lifelong learning to the larger community.

Regarding teaching effectiveness as paramount in its educational enterprise, Johnson C. Smith has a commitment to the recruitment and retention of an outstanding faculty. To this end, the University promotes faculty development, encourages faculty involvement in research and other creative activities, and endorses the principles of academic freedom.

To ensure the integrity and stability of its status and the perpetuation of its rich legacy, Johnson C. Smith University has firm resolve to maintain the fiscal and human resources requisite to be a truly distinctive institution-- a hallmark of excellence in its students, faculty, staff, administrators, academic and other programs, facilities, operations, and environment.

Message from Dr. Yancy

To the Class of 2007

I would like to take this opportunity to extend my heartfelt congratulations and best wishes to the class of 2007.

REMEMBER THE TIME WHEN...

1. We had gym parties and café parties every Friday and Saturday on campus?
2. The entire class of 2007 raced down the middle of Campus Street with the Charlotte Mecklenburg Police late at night?
3. We came to Golden Bull Academy, and had so much fun that we were ready to move into our dorms right after?
4. There was a Paintball Sniper in Liston Hall?
5. We had a big snow storm which led to many days off from school and campus wide snowball fights?
6. Everyone would represent their dorm by throwing up signs or giving it a nickname like Liston Heights and Da Carter Boyz?
7. There was a black out on the entire campus?
8. Celebrities would just show up on campus e.g. Timbaland & Magoo, ATL, Carl Thomas, Loon, Young Gunz, etc.?
9. Everybody had at least one shirt, jacket, hat, or hoodie designed by Cease?
10. T.I. and Diddys Da Band performed at our homecoming?
11. There were fights on campus, and no one ever got caught and a party never got cancelled?
12. There was a Valentines Day party in the Café and a Players Ball in Grimes Lounge?
13. Everybody were faithful customers of Chicken King, Teddys Pizza, and Mr. Jims?
14. Everybody got their first tattoo or piercing at the Ink Lounge?
15. Everybody used to hang out on the Block, steps of Liston, front of Myers, front of Greenfield, and the steps of Carter all day and all night?
16. There were Rep yo hood basketball games?
17. There was a Chucktown Cookout every year (minus the guns?)
18. Everybody went to the party at the Barn, and there was a shootout?
19. There was the infamous fight (West Coast vs. East Cost)?
20. You went to clubs like H2O, Menthos, and the Breakfast Club?

"Looking Forward to Looking Back"

Looking Forward to Looking Back

Im lookin forward
To looking back
The former temporary:
Registrars
Business
Financial aide
Office
The run-around
The back and forth
Looking forward
To looking back on
The gym parties
The pick-up lines
Campus Security uh
Police
Whats in the can?
Im looking forward to looking back on
Look to your left, now look to right
And I made it
Looking forward to
Waking up at the crack of dawn when money is
involved
But also my next meal and my rent
Then looking back, realizing
Theres no skipping or making silly excuses that
neither of us believes
Im looking forward to Madame President
And looking back on all the wonderful, terrible,
amazing, very bad, very good, horrible
Times
Looking forward to the tear of nostalgia
And saying to some youngun
Well, back in 07 we were nothin like that
Im looking forward, to looking back.

Ruth Mitchell

Do you remember?
Your first time away from home.. alone
Being so scared, not knowing anyone, not knowing if
you would be accepted or not
Do you remember your first dance?
Your first test
Your first paper
Do you remember your first last minute assignment
that took you all night to complete?
And do you remember your first date
The first time you fell in love with someone in
college
And are you still in love with that same person?
Do you remember the night out with friends that you
wished never ended?
I remember them..
But now the sun is slowly setting on our college lives
And our paths though different, one thing is for sure.
Our memories will never fade.
From the friends weve met to the friends weve lost
To the conversations weve had from friends that
encouraged a bond that could never be replaced
To walks in the mall while shopping, that brought
smiles to your face
Going to your first college football and basketball
game.
Watching our band giving their all
To walking in history as you first walked through
Biddle Hall.
I remember them
Do you remember the first time you received your
laptops and couldnt wait to write your friends.
And the first homecoming concert you wanted to
attend.
We now look forward to walking the stage receiving
degrees while our families cheering with pride
As our parents smile with tears in their eyes.
Ill remember that day and I know you will too
And we will always remember saying
We love you JCSU!

THE BULL 2007

The Smith Life

What are the experiences that we ALL can share as we live, work, learn, and have fun at JCSU? On the next few pages you can find out.

ENTER THE *SMITHITE* WORLD...

Residence Life

THE BULL 2007

Mr. Terry McPherson, Director of Residence Life.

Operating under the mission of Johnson C. Smith University, the Office of Residence Life is devoted to facilitating students' matriculation through Johnson C. Smith University by providing co-curricular activities and providing necessary structure in a community building environment that not only allows students to move through JCSU, but encourages the spirit of the "University's mission" to move through the student.

Our hope is that residence life helps builds a sense of pride, achievement, and community that will allow students to reach their maximum potential while at Johnson C. Smith University and venture outside of these walls and be productive citizens that are eager to learn and grow. " I love my job and I care about my residents," shares RHC Ms. Wanda Middleton.

Presented below is each of the 10 residence halls, their staff [which includes a full-time Residence Hall Coordinator (RHC) and student Resident Assistants (RA)], and students who have taken leadership positions within the halls' walls as Hall Council representatives.

Carter Hall

Staff

Carter Hall is the oldest residence hall on campus. It was constructed chiefly by students in 1896.

GOAL: The Office of Student Support Services seeks to accomplish its mission through providing services that increase college retention and graduation rates of its participants and facilitates the process of transition from one level of higher education to the next.

Student Leadership Training

The Student Leadership Training took place for a week in mid August 2006. The goal of this program was to train student leaders and help them gain more skills. The group attended seminars, learned team building, went through an obstacle course at UNCC, and ended with a night of bowling. Below are some pictures from the different activities.

The Café, Library, Laptops

THE BULL 2007

The outside of the café (which is on the second floor).

The Café

Students in the café, chillin'.

Smithites who eat in the café say that the quality of the café has improved. Many were asked, What is unforgettable in your mind about Smith's café? Freshman Corey Brown said, You know when someone just came from the café, referring to the fresh-fried smell that lingers.

Robert Isaac says his favorite days are when ice cream is served, but he wonders why the ice cream machine doesn't work so he can have it everyday, Or why not just give us Mrs. Fields?
--By Serena Love

"Mr. Tucker, what you got cooking?"

Laptops

"Out with the old, in with the NEW" By Serena Love

Laptops are one thing that draws new students to Smith. JCSU is an IBM ThinkPad University, which means full-time incoming students receive an IBM laptop to use throughout their stay.

For the last 3 years, students have had the same laptops, but this year was different. The new laptops have an expensive look and many convenient features. According to John Norris, Director of the Information Technology (IT) department, laptops were custom-made for Smith students. They have each have a larger screen, a DVD player, a CD burner, a larger hard drive, and media players.

Laptops are a good idea. All students get laptops, and are not in the library fighting over computers. They also give students the opportunity to interact with professors, says Senior Martist Jackson. But Robert Isaac disagrees, I can buy a Dell for \$600. So why are we paying so much for laptops?

Although the new and improved laptops are great, some students would like the option to not use them and therefore not be charged. Senior LaTasha Jackson says, Students pay too much to rent laptops.

There are many things that students do not agree with or understand, so it is important for faculty and students to communicate through the various elected students on the class councils and SGA. But one thing that was understood and agreed upon: students needed and deserved to have new and improved laptops!

Library

Students in the library studying...the library now stays open until 1am on Monday thru Thursday and 5pm on Friday. And on Saturday 2-6pm and Sunday 2-10pm.

Intramurals

The mission of the Johnson C. Smith University Intramural Program is to extend services to the student body community with special emphasis on student activities. Our goals are to provide effective and quality programs and services that meet the needs of the attending students, through recreation, leisure activities and educational programs. Through the Office of Student Activities and Intramural and Recreational Games Program, together we can be a very important tool for student extra-curricular development.

Each year the Lyceum Series Committee (whose members are nominated by the chairs and appointed by the University's president) brings lecturers and performers to Johnson C. Smith University. Attendance by current JCSU students of a total of eight lyceum events is a graduation requirement, but the events are free and open to the greater Charlotte community as well. The JCSU Lyceum series started in the early 1920s.

Our Year

Between August and March, there were many noteworthy events at Smith. Smithites of all classifications experienced things in the '06 - '07 academic year that either are hoped to be experienced again or it is hoped they won't. But in either case, we chronicled them here in this section for memory's sake...

QEP/Accreditation

THE BULL 2007

Surround Yourself with SUCCESS @ JCSU!

In the fall of 2006, JCSU went through the accreditation process on the QEP Plan. One particular Goal was to reach consensus among diverse stakeholders and articulate a shared conceptual frame (vision).

SACS Core Requirement 2.12 states that "the institution [must develop] an acceptable Quality Enhancement Plan [and] that the plan [be] part of an ongoing planning and evaluation process."

The essential components of a successful QEP include:

- A clear defined and focused topic that directly relates to student learning,
- A set of clearly defined goals as well as learning outcomes that are achievable and assessable,
- Assessment strategies that allow the institution to determine the achievement of goals as well as use the results for continued improvement,
- A description of adequate resources that are in place for implementation,
- Evidence of broad involvement and support of the plan.

The development of QEP is based upon a comprehensive and thorough analysis of the effectiveness of the learning environment for supporting student learning and accomplishing the mission of the institution. The QEP is, and should be, integrated into the institutions ongoing planning and evaluation processes.

JCSU **PASSED** the QEP and is accredited for the next 10 years!

SACS' On-Site Reviewers

New policies...

No decal, no on-campus parking.

Looking Forward to Looking Back

This semester campus security has implemented a strict parking policy. Parking decals are thirty dollars per semester. Also, JCSU has signed a contract with a local towing company, so students, visitors, or faculty without decals will now be towed at their own expense. Students may have to park at locations that are inconvenient to class, such as on Campus Street or by New Res. Hall. Yearbook staff asked several students their opinion on this matter:

"I think that this new towing policy is great for those who didn't pay for a decal. It's not fair to students who pay to park and can't because of lack of spaces. The towing policy will open students' eyes."

Senior, Erica Rambus

Students who don't have a decal have to park off campus, such as on Campus Street.

"It's good to see Smith updating their parking policy. I am for it."

Senior, Daniel Garland

Your Opinions on Parties

By: Dorrell Turner

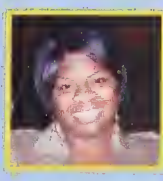

The new party policy allows on campus parties only twice during the academic school year: Homecoming and BullFest. The "JCSU Student News" asked (in an unscientific survey) several students on campus to give their views on this new policy. Here is what they had to say:

Do you agree with the current party policy on campus?

"Although I do believe that we are adults and that we should act like it and not fight, I think that it is safer for students to hold parties on campus where the crowd is more controlled rather than somewhere in the clubs that get shot up every other week."

Sophomore, Courtney McKnight

"No, because I want that experience without being in harm's way at off campus parties. The social life at Smith is dead. I feel like I am in jail."

Senior, Sheena McFadden

"No ! Parties on campus are safer than ones off campus"

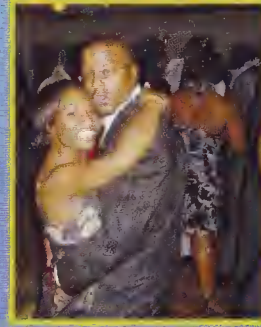

Senior, Terence Holmes

JCSU's Board of Visitors (BOV) met on Feb. 8th and had dinner in Grimes later that same evening. Membership in the BOV is open to invited business and civic leaders in the community. The BOV meets about twice annually to receive updates and information about the University and its students, faculty and programs. The purpose of the Board of Visitors is to promote the goals and assist the programs of Johnson C. Smith University.

THE BULL 2007

On Friday, December 1, 2006, Cindy Kistenberg's "Introduction to Drama" class put on a performance, "HIV and You," that was to bring HIV/STD awareness to the campus of JCSU. Earvin "Magic" Johnson on The Disease of Color, 'Each one, teach one'.

By Serena Love

On Wednesday, February 28, 2007, Earvin "Magic" Johnson came to speak not on basketball but on an issue far more important. An issue that 89% of people of color are affected by. The issue was HIV.

Each year out of the newly infected, more than 50% of them are Black and 29% of them are Hispanic. Black women are 14 more times likely to contract HIV than white women. And for every 10 HIV tests taken, every 3 are diagnosed (30%) with AIDS, which means these people have had HIV long enough for it to have become full blown AIDS. This can also mean many probably have no idea they are infected and are spreading the disease unknowingly to innocent bodies. So Magic Johnson, being the leader that he is, unveiled a program called "I Stand with Magic" on Dec. 1, 2006, World AIDS Day. The purpose and goal of this program is to end HIV-infection and AIDS in the black community through education, protection, testing and HIV-treatment.

Johnson opened his JCSU speech in Biddle Hall's Gambrell Auditorium with basketball, how much he loved the game and the joy and excitement he got from it. This is a man who won 5 championships, who was and still is a star, a legend, but its also a man who thought HIV could never happen to him. He is trying to get uninfected people to realize they can remain unaffected. "Read the information, do what you need to, you have a chance to do something about it." he said. "[You] may moan and groan when I say this but the safest sex is no sex." And the audience did moan, laugh, and turn up their faces, but Magic stayed serious.

"The purpose is to educate yourself and not to be just book smart. You must have common sense as well, because no matter how buff a man is or how fine a woman is they could be carrying the virus." The way he found out he had HIV was through a test for basketball. At the time he was playing for the Lakers and they were required to take two physicals, one for the team and one for insurance. The insurance physical was the one that included the HIV test. Magic says he was more devastated that he couldn't play ball anymore than he was about having HIV. On top of all that he had to tell his wife who at the time was pregnant. She told him she loved him and that they would get through it.

However, he became depressed and wasn't doing much of anything. Finally his wife came in one day and told him that she and the kids were tired of him, he was depressed and was not the man she married, she wanted back the man she married, and so he got it together.

Currently, Magic has 25,000 people on his payroll. He has 106 Starbucks, 32 Burger Kings, and 42 Fitness Clubs among other things. He explained that he makes sure his establishments perform well and are successful. He said, "If you can't imagine yourself being successful it's a problem. You must be able to imagine yourself where you want to be. If you can't dream it, you can't become it. You must use your opportunities. Just because your poor doesn't mean you have to have poor dreams. If you have friends that don't believe in your dreams and support you, let them go. Students get scholarships and won't go to class. If you have a scholarship, you should be in class." He said he always listened to speakers to better himself and be smarter., because "you can't learn everything, but that's why there are speakers, so learn from them and use what they tell you."

In closing Johnson told students, "You can't just be in the BET world, you can't just be that. You gotta cross over to a lot of different worlds." He encouraged athletes to get tested and he answered questions from the audience. One question was, "When you find out someone has HIV how can you help them and support them?" He answered, "Treat people the same. If you knew them before and you use to dap them up and hug them, do the same thing after you find out. Don't treat them any different and don't ask them every two minutes if they're okay, they want to be treated the same and know you care. but don't overdo it. On the other hand, if you find out you have HIV and your uncle doesn't want to be your uncle anymore, get another uncle."

Members of the Gamma Lambda chapter of Delta Sigma Theta Sorority, Inc. pose with Earvin "Magic" Johnson. The sorors opened up his lecture with a step routine.

Aisha Nicole Lide

Miss JCSU 2006-2007

Queen Aisha N. Lide

THE BULL 2007

The Queen's Biography

Aisha Nicole Lide is the only child and daughter of Alphonso and Peggy Lide, the granddaughter of Frances and Elouise Lide, and the late Blanche McCloud. She is a native of Charlotte, North Carolina and a 2003 graduate of Harding University High School.

Aisha grew up on Johnson C. Smith University's campus. At two years of age, Aisha began attending the Mary I. Belk Day Care Center. She was destined to attend JCSU. She is a true legacy! Her mother, father, aunt, and uncle graduated from this prestigious university.

During her tenure at Johnson C. Smith University Aisha, a Duke Endowment Scholarship recipient, has maintained a cumulative grade point average of 3.75 all while being involved in numerous extracurricular activities to include: varsity cheerleader, serving as captain for three consecutive seasons, Miss University Cheerleader 2004-2005; track; editor-in-chief of the JCSU Student Newspaper for three semesters; co-editor of the yearbook; a member of Alpha Lambda Delta Freshman Honor Society, serving as Vice President in 2004-2005; Alpha Kappa Mu Honor Society, serving as Treasurer 2006-2007; Student Advisory Athletic Committee representative; a member of Alpha Kappa Alpha Sorority Incorporated; and freelance writer for The Charlotte Post.

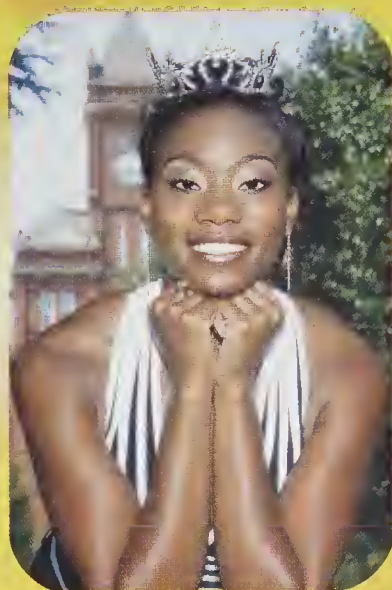

Aisha has been named All-CIAA in cheerleading for two consecutive seasons, and All-CIAA in track and field in 2003-2004, placing 3rd in the 200-meter dash as a freshman, running on a 2nd place 4x100 meter relay team. She was a member of the first womens track team, at Johnson C. Smith University, to be runner up in the CIAA and qualify for a National Championship. Aisha is truly a young lady who has been blessed with varied talents but has not forgotten the importance of giving back to the community. She has spent numerous hours volunteering with local elementary schools, cheerleading squads, track teams and school tools.

Most recently, Aisha made JCSU history by becoming the first Miss JCSU to place in the top 10 at The National Black College Alumni Hall of Fame Queens Competition, held in Atlanta, Georgia. Aisha was also selected to participate in the prestigious Collegiate Women of Color Institute, in Baltimore Maryland and was awarded a grant to develop programming for African American youth in the Beatties Ford Road Community.

Upon graduating from Johnson C. Smith University, Aisha plans to pursue her passion in the fields of graphic design and photography. Her goal is to attend Savannah College of Art and Design, at the Atlanta, Georgia campus, and earn a Masters of Fine Arts degree.

Aisha with parents, Mr. and Mrs. Alphonso and Peggy Lide.

The athletic team selected the Sponsors of Johnson C. Smith University from Barber-Scotia College. During the thirties upper class Scotia women were admitted to Johnson C. Smith University. The upper class Scotia women were selected by the athletic team to be the Sponsors of JCSU. The title "Sponsor" underwent a change and the title "Miss Johnson C. Smith Homecoming Queen" was later adopted.

Miss Johnson C. Smith University was selected by the football team and crowned by the President during halftime at the homecoming games. This practice continued until 1944. Dr. Hardy Liston, then the Executive Vice President, installed the student government association and its first president Mr. William Davis to handle all homecoming events.

Glamour during homecoming started when Mrs. Inez Moore Parker staged the coronation of the Queen as a special feature before the homecoming game. The ceremony resembled the British Coronation with all its beauty and glamour. Soon the coronation became the pride and joy of every Smith female. The coronation took place in Biddle Hall until 1965. When the new gymnasium was built, the crowning of Miss JCSU was held at the gym. The homecoming queen activities were filled with glamour and prestige under the sponsorship of Mrs. Inez Moore Parker for thirty years.

During the sixties when the phrase Black is Beautiful expressed the sentiments of blacks in America, the style of the coronation changed to reflect an afrocentric perspective. Mrs. Joyce Crisp, then the student union Directress in 1972, headed the first afrocentric coronation. The script for the coronation was written in Swahili with assistance from Le Roi Jones. Mrs. Crisp designed the set with an African motif. Everything was designed with the most exquisite taste and related to the homecoming theme.

Note: Information taken from the student activity "finding aid" in the archives written by Monika Rhue, University Archivist. You can also find information on JCSU Queens in the Biddle-Johnson C. Smith University book by Inez Moore Parker.

History of Basketball

THE BULL 2007

Today, looking back, almost all sports have evolved from one another. In 1891, basketball was created to keep restless young men busy, and the first sets of rules were developed. The origin of this sport is traced back to a man named Dr. James Naismith. In 1891, he was attending a training school at the Young Mens Christian Association (YMCA) in Springfield, Massachusetts. The idea behind basketball was to create a sport that could be played inside, but still developed skill and didn't rely so much on one's strength. The first game was played with two peach baskets, four goals and a soccer ball. Basketball was not accepted in many countries until 1893, and in the U.S. was played through the YMCA. The original balls were brown and also difficult for players as well as fans to see, so in 1905 Tony Hinkle developed the orange basketball used today. The first game was played on January 20th 1892 in the YMCA with nine players. It wasn't until 1936 when basketball was brought to the Berlin Olympics. Thereafter, it became a popular professional sport, which even now is still loved and shouted for with great and competitive excitement.

History of Football

The history of football is important to the culture of the United States as well as football games around the world. American football is a descendent of rugby football and is the most popular sport in the United States. In rugby, the ball is kicked at a goal and then carried over a line. Football, also called "gridiron," is known for being physically rough and strategic. Rugby was played without the use of pads, no time outs and limited substitutions. In 1823, a rugby school student William Ebb Ellis picked up the ball during a soccer game and ran with it. This is what influenced Walter Camp, who, in 1879, first instituted the rules of the game. Walter Camp wrote the first rule book and edited every American football rulebook written until his death in 1975. Walter Camp also contributed the below changes from rugby and soccer to the American football game:

- one side retained undisputed possession of the ball, until that side gives up the ball as a result of its own -violations
- the line of scrimmage
- 11 on a team instead of 15
- created the quarter-back and center positions
- forward pass
- standardized the scoring system, numerical scoring
- created the safety, interference, penalties, and the neutral zone
- tackling as low as the knee was permitted - 1888
- a touchdown increased in value to six points and field goals went down to three points 1912

The NFL also called the National Football League was formed in 1920. The reason professional football established this was because there was so much confusion among athletes. There were three major problems: dramatically rising salaries; players continually jumping from one team to another following the highest offer; and the use of college players still enrolled in school. The idea was to create a league where all the members would follow the same rules. An organizational meeting was called and in attendance were the Akron Pros, Canton Bulldogs, Cleveland Indians, and Dayton Triangles and was held in Canton, Ohio, August 20, 1920. This meeting resulted in the formation of the American Professional Football Conference which brought about the American Professional Football Association (APFA), originally named the National Football League in 1922.

Luv-A-Bulls

THE BULL 2007

This is a sport that uses shouting and clapping for encouragement, it also uses routines organized with gymnastics, dance, and stunting to cheer on sports teams at games and matches. Cheerleaders perform complicated stunts that require endurance, strength, flexibility and a number of other qualities that are required in many other sports. Cheerleading first started at Princeton University in the 1880s with the crowd chant "Rah Rah Rah, tiger lion bear, sis sis sis, boom boom boom, ahhhhhh; Princeton Princeton Princeton," to encourage school spirit at football games. Today 97% of cheerleading participants are female. In 1920 females started to participate in cheerleading because of the limited collegiate sports offered to them. Cheerleading is most associated with football and basketball. Other sports such as ice hockey, soccer, volleyball, baseball and wrestling rarely ever have cheerleaders. In the 1960s the NFL organized professional cheerleading teams to encourage the crowds with yelling, chants, and stunts. Today, many cheerleading teams entertain with dance performances, including the Luv-A-Bulls at JCSU.

Women's Tennis

Looking Forward to Looking Back

The origin of tennis has been disputed; some believe that Egyptians, Greeks and Romans all played a similar game to tennis. The word tennis derived from the Egyptian town of Tinnis. Racquet evolved from an Arabic word, Rahat meaning "hands palm." In Egypt when the game was played they used the palm of their hands to hit the ball. Balls then were made of cork, wool or hair which eventually began to hurt their hands. Players started using gloves, and then paddles attached to handles, which then evolved into a racquet. Within 200 years a fully developed racquet was used; it had a wooden frame and was strung with sheep's gut. The interest in tennis reduced greatly until the 1850s when Charles Goodyear invented vulcanization (which improved the strength, resilience and texture of rubber by combining with sulfur or other additives under heat and pressure) which resulted in bouncier balls. In 1874, Major Walter C. Wingfield patented equipment and rules for the game similar to modern day tennis, he was also known as the father of modern day tennis. In Wingfield's rules the courts were shaped like an hourglass, narrow at the net and widened as it went out. He tried to revise this in 1875 but didn't have much luck. In 1877, the All England Club held the first Wimbledon tournament and soon after the members came up with more rules and modified the look of the court. Even then the net was still five feet high on each side and three feet in the center. In 1982, the rules were revised again and are the same rules we currently use today.

Indoor-track and field meets date back to 1863 with 100-, 200-, 440- and 880-yard races and the triple jump. Track and field is composed of running, hurdling, jumping and throwing events between people or teams involved in indoor or outdoor meets. Track events include running and hurdling whereas field events include throwing and jumping. There is no fixed number of team members and most athletes participate in more than one event. This is one of the worlds oldest sporting events; track and field was depicted in Ancient Egyptian Art. Records also prove that races took place in Ancient Greece before 1000 B.C. The first athletic group held its first collegiate races in 1873. The first modern track and field meets happened in 1837 and the first NCAA national championships were held for men in 1921. Women were not entered into events in the Olympic Games until 1928, and, up until the 1970s, women in track and field struggled for acceptance.

In cross country, teams of runners compete to see who can finish a course in open and rough terrain fastest. Cross country differs from road running and track running, in that the course usually includes grass, mud, woodlands and water. Teams are composed of between four and twelve runners. This sport originated from England in the early 1800s where it was mainly offered just in public schools. (In the United States amateur running differed depending on the league and gender of the runner.) In the 19th century in England, cross country started with a game called hare and hounds known to some as paper chase. In this game a runner or a group of runners laid a trail by dropping pieces of paper or other markers while following a random course. Then a second set of runners set out to follow the trail in which they left behind. The English National Cross Country Championship was established in 1876. In 1880, cross country running was introduced at Harvard as a training event in the fall for track and field runners. After this other schools began to follow their example and in 1912 cross country became an Olympic choice.

Bowling has a long history and is one of the most popular sports in the world. It is believed that bowling dates back to the 3000s (B.C.) in Egypt. The first tournament was held in 1901, and in 1916 the WIBC (Womens International Bowling Congress) was established and sponsored annual tournaments beginning in 1917. In 1982 the YABA (young American Bowling Alliance) was formed to promote regulations of youth bowling through college aged bowlers. Bowling is also called 10 pins, and the point is to roll a 6 to 16 pound ball down a 42-inch wide and 60-foot long lane to knock over as many pins as possible in one shot. In the 1950s the automatic pin setting machine racked pins and left no need for pin boys. This is a sport that is known for fun on the weekend as well as a professional one.

This sport originated in Chicago, Illinois on Thanksgiving Day in 1887, when a group of 20 young men gathered in a gym to hear the outcome of the Harvard-Yale football game. After Yale's victory was announced and bets were paid off, a man picked up a stray boxing glove and threw it at someone, who then hit it with a pole. George Hancock who is considered the inventor who shouted "Let's play ball," tied the glove to resemble a ball and broke off a broom handle for a bat. New rules were written and the game was called indoor baseball. In 1897 a publication of an indoor baseball guide was printed and in 1888 the game moved outdoors. In 1895, the first womens softball team formed at Chicago West Division High School. This team didn't have a coach for competition until 1899 and it was difficult to create interest among fans. Softball, also known as "kitten ball" or "mush ball" derived from baseball and in two types: fast pitch and slow pitch. Though softball is played by both men and women teams, it is more popular amongst women. Championships are held at state and local levels but softball is played in over 100 countries around the world. Australia is the only country in the world that has four teams ranked in the top three in the world. In 1996, in Atlanta is when it was first introduced into the Olympics as a sport.

Why do golfers yell "Fore"?

Well interestingly, "Fore" simply means "ahead" or a short way to say "watch out ahead,"; it is a simple word that forewarns other golfers. This sport was played in Scotland in the 15th century where players hit a pebble around a natural course of sand dunes using a stick. Rounded stones were hit into rabbit holes by bored shepherds tending to their flock. In 1421, golf was introduced in Scotland. There are many different forms of golf that date back to the 14th century in Holland, Belgium, and France. The earliest club makers were thought to be the same skilled craftsmen who made bows and arrows. In 1603, William Maybe was the first athletic club maker. Club heads were filled with lead, leather, or bone, then blacksmiths started making them. The earliest balls were stuffed with boiled feathers and hand stitched. Golf like any other sport can be fun if you open your mind and enjoy what you're doing.

There is a sport for each and every person to play and if there isn't, you can probably create your own. And who knows? Maybe someday it will be a nationally- and internationally-played event.

THE BULL 2007

Mission: Tau Beta Sigma National Honorary Band Sorority provides service to collegiate bands, encourages the advancement of women in the band profession, and promotes and enriches an appreciation of band music through recognition, leadership development, and education of its members.

History: The first practical idea for establishing a "band sorority" as a national entity to meet the expressed needs of the growing number of women in college and university bands was presented by band member Wava Banes (Henry), along with her classmates, Emily Surell and Rosell Williams, to director D.O. Wiley of the Texas Tech University Band in the closing months of 1937. This discussion led to a group of bandwomen at Texas Tech University founding a local organization known as "Tau Beta Sigma," modeled in principle on the example of Kappa Kappa Psi. Much like the fraternity, Tau Beta Sigma's purpose at Tech was to serve as an honorary service and leadership recognition society, but it was designed especially to provide the important additional social, educational, and other positive experiences needed by women in the band. In January of 1946, the women of the Texas Tech Tau Beta Sigma Band Sorority, through their director, D.O. Wiley, graciously surrendered their name, "TAU BETA SIGMA," their constitution, ritual and jewelry designs to the local band club at Oklahoma State University, in order that the national organization could be established. By doing so, the Tech women understood that they were permitting the Oklahoma State group the title of "Alpha, the Mother Chapter," and accepted the status of "Beta Chapter," the second chartered chapter. On March 26, 1946, a charter was granted by the Department of State for the State of Oklahoma legally establishing "Tau Beta Sigma, National Honorary Band Sorority," later amended to "Tau Beta Sigma." On May 4 of 1946, the members of the Alpha Chapter traveled to Lubbock, Texas, to officially install the women of Texas Tech as the Beta Chapter of the National Sorority.

The History of Alpha Omicron chapter. Alpha Omicron Chapter was established on May 4, 1923. During the year of 1922, a visit was made to the campus of Johnson C. Smith University, then Biddle University, by Brother Victor R. Daly. The students there became interested in the Alpha Phi Alpha Fraternity. Acting upon the advice of Brother Daly, correspondence began with the General Secretary, Brother McGhee. The school year closed without any definite action being taken.

During the following school year, this group of students organized a club which was known as the "Alpha Aspirants." The application of this group was sent to the Fifteenth Convention at St. Louis. This application was referred to the Executive Committee for investigation. In March 1923, a notice was received from the General Secretary stating that upon the recommendation of the Executive Committee, the application of the "Alpha Aspirants" had been approved. On May 4, 1923, in St. Michael's Parish Hall, the Alpha Omicron Chapter of Alpha Phi Alpha Fraternity INC was established.

Charter Members of Alpha Omicron: Milliard F. Adams, Thomas E. Allison, Edward H. M. Allen, William E. Beavers, Jr., James H. Cowan, Gaston E. Dudley, J. Riley Dungee, Jr., Ellis E. Gregg, Matthew J. Since its founding on December 4, 1906, Alpha Phi Alpha Fraternity, Inc. has supplied voice and vision to the struggle of African-Americans and people of color around the world.

Alpha Phi Alpha, the first intercollegiate Greek-letter fraternity established for African-Americans, was founded at Cornell University in Ithaca, New York by seven college men who recognized the need for a strong bond of Brotherhood among African descendants in this country. The visionary founders, known as the "Jewels" of the Fraternity, are Henry Arthur Callis, Charles Henry Chapman, Eugene Kinckle Jones, George Biddle Kelley, Nathaniel Allison Murray, Robert Harold Ogle, and Vertner Woodson Tandy. The Fraternity initially served as a study and support group for minority students who faced racial prejudice, both educationally and socially, at Cornell. The Jewel founders and early leaders of the Fraternity succeeded in laying a firm foundation for Alpha Phi Alpha's principles of scholarship, fellowship, good character, and the uplifting of humanity.

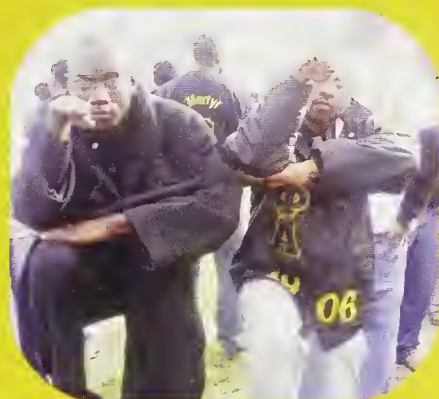

Alpha Phi Alpha chapters were developed at other colleges and universities, many of them historically black institutions, soon after the founding at Cornell. While continuing to stress academic excellence among its members, Alpha also recognized the need to help correct the educational, economic, political, and social injustices faced by African-Americans.

Alpha Phi Alpha has long stood at the forefront of the African-American community's fight for civil rights through leaders such as: W.E.B. DuBois, Adam Clayton Powell, Jr., Edward Brooke, Martin Luther King, Jr., Thurgood Marshall, Andrew Young, William Gray, Paul Robeson, and many others.

Kappa Alpha Psi

Fraternity, Incorporated

On January 5, 1911, 10 students attending Indiana University in Bloomington, Indiana gave birth to a dream. Elder Watson Diggs, Ezra D. Alexander, Byron K. Armstrong, Henry T. Asher, Marcus Peter Blakemore, Paul W. Caine, George Edmonds, Guy L. Grant, Edward G. Irvin, and John Milton Lee founded a fraternity called Kappa Alpha Nu. The purpose of this fraternity was a need for the Black students at Indiana University to have support and camaraderie as there was no support for them among the other students. Kappa Alpha Nu did not warm over the principles or practices of other organizations. This Fraternity would seek to raise the sights of black youths and stimulate them to accomplishments higher than might otherwise be realized or even imagined. On May 15, 1911, Kappa Alpha Nu became the first undergraduate college fraternity to be incorporated by blacks as a national body. From those humble beginnings, Kappa Alpha Nu spread to other schools, giving other students the opportunity to experience the brotherhood that this growing fraternity established. On April 15, 1915, the name of the fraternity was changed to Kappa Alpha Psi shortly after the Fourth Grand Chapter meeting. Kappa Alpha Psi has grown from 10 members at Alpha Chapter at Indiana University to over 100,000 members in nearly 700 undergraduate and graduate chapters stretching throughout the United States, the Bahamas, Germany, England, Japan and Korea. The fundamental purpose of Kappa Alpha Psi is honorable achievement in every field of human endeavor. Kappa Alpha Psi is also dedicated to community service. Guide Right is the national Service Program of Kappa Alpha Psi and is probably what we are best known for. The Guide Right program is designed to improve the lives of youths in our community. Kappa Alpha Psi awards scholarships and provides mentoring the thousands of youths across the country.

Achievement in Every Field of Human Endeavor

In 1927, D.P. Young, Polemarch of the Southeastern Province, installed the Alpha Epsilon Chapter as the first chapter of the Middle Eastern Province, at Johnson C. Smith University in Charlotte, NC. On December 10, 1927, the Alpha Epsilon Chapter began with its first six initiates: A.S. Powe, L.L. Blakney, J.A. Blount, J.H. Justice, J.A. Jones, and W.A. Perry. The first Polemarch of the Alpha Epsilon Chapter was J.H. Alston, the dean of the University's College of Liberal Arts and former member of the Epsilon Chapter. The Alpha Epsilon Chapter of Kappa Alpha Psi Fraternity, Inc. is known as the "Motherhood Chapter" of the Middle Eastern Province. This chapter has been known throughout history as being among the best in the country. The members of the Alpha Epsilon Chapter take pride in their fraternity and want to see their chapter continue to grow and make huge strides into the next millennium. The members of the Alpha Epsilon Chapter are leaders, and will continue to be leaders of our society. Each one of them possesses a strength or skill that will one day lead to his success. After the Alpha Epsilon Chapter was established in 1927, it was instrumental in the finding of three other local chapters in the Middle Eastern Province. They assisted in finding the Zeta Delta Chapter at the University of North Carolina at Charlotte, the Zeta Sigma Chapter at Barber Scotia College, and the Kappa Sigma Chapter at Western Carolina University.

Whew! The job is done and it is now time for even bigger and better things. What a wonderful and amazing experience this has been to work on the 2007 edition of "The Bull." I will never forget it and I know that what I have learned will benefit me and others for such a long time to come. I am so very grateful and really cannot find the words to express the depth of my gratitude. Even if I only received this opportunity because no one else wanted the responsibility (or burden) as much as I did, then that was a good thing (yes, I wanted it). I hope that many who will own this book, or come across it, will enjoy it. I truly started this project off with thinking about how I could help a team of students to produce a hard copy that would be highly acceptable to the JCSU family. I hope that I accomplished my goal. **For those students who read this and will be at Smith for another year or more,** please carry on this torch that I have lit and the 79 editors before me (this is really the 80th volume) to do an even better job than any of us (I am glad to have personally known Lenisha and Lauren). The future top editors have my support and sincere best wishes. **For those people who didn't make it on page 8** (charge it my head)...thank you Dr. Kistenberg, Prof. Cassandra Wynn, and Zubida Bakheit! **And for those who are on page 8...**thank you to you all, this book could not have been completed without you.

Now...since I didn't put my last will and testament in the actual section (more pages should be forthcoming for future classes from the administration now that the 2006-2007 staff have shown more of what students are capable of), I want to say the following:

A major shout out to **my best friends:** Michelle, you did this Black college thing when you were supposed to, and Kelley you still have yet to get your degree but are probably making more money than both of us put together, but I just had to do it and I am glad that I did!

To the young men and women here at Smith! Be so glad that you did college now; it should come in very handy in giving you a head start toward success at a younger age. There are a few of you (my role models) that have consistently shown good form and etiquette and instinctively or knowingly (yes, there is a difference) demonstrated that you understand there is a time and place for everything. I won't state names but yes, I watched everyone, as everyone, I know, watched me. I pray that my children (if he says "yes") are that which you are and more. If so, what light can be brought to the world!

To JCSU and to the current and future Smithites who are brilliant enough to receive the following: I leave the trail I have blazed in both the NCCIE/NGA Model UN, and "The Bull," our student annual - the two most significant experiences I have had during my academic career at JCSU - and I especially thank all of the students who experienced them with me. **To future Bull staff,** I leave Adobe software manuals and some supplies. I leave best wishes to **all connected with MoneyMasters, Black Student Action, the Communication Arts department, the Math dept., the Music dept, the Foreign Language dept., the Midwest Coalition, and the R & R Pre-Law society.** **To all,** I leave my love of reading, writing, and learning; I leave my preference to focus on the inner world of ideas and impressions in order to make a change in self and thereby the world; I leave my ability to not just survive, but thrive; and I leave my unwillingness to accept "no" as an answer without logic or a sound rationale.

To the administration, faculty, and staff (and their families) whom inspired and/or challenged me to be better (either directly or indirectly) or were just "really good people": Dr. Dorothy Cowser Yancy, Dr. Sutton-Haywood, Ms. Jeter, Ms. Sonia Youngblood, Officer Ratliff, Officer LeGrand, Sgt. Jordan, Ms. Keisha Ramey, Mr. Gilmore, Dr. Ahmed, Mr. Frank Parker, Prof. Shurts, Dr. Mager, Dr. Jeter, Dr. Moore, Duke Library Staff, Dr. Kandace Harris, Prof. Kelly, Dr. Carmen Walker, and Assata Harris, FDY folks, Mr. and Mrs. Calvin & Janice Banks, Mr. and Mrs. Ron & Sharon Matthews, Dr. and Mrs. Hoffman, Dr. Priest, Dr. Quick, Dr. Ford, Dr. Etukudoh, Prof. Kirkland, and last but not most important, Dr. Nsenga K. Burton, my advisor.

Much love to all of **my scholarship donors, my WINGS mentor, Mrs. Kathy Donner, Mr. Phillips and Ms. Phippen** (I miss you two), **my mom, my god mom Mrs. Khalisha Fahim and her family, my dad, Mr. O. L. J. R. Jones** (smile), and **to the Saviour** and all those who do what he would do (you are my heroes). **To my most favorite person in this universe, my mom's mom, I LOVE YOU SO MUCH!! To John,** your unconditional love strengthens me.

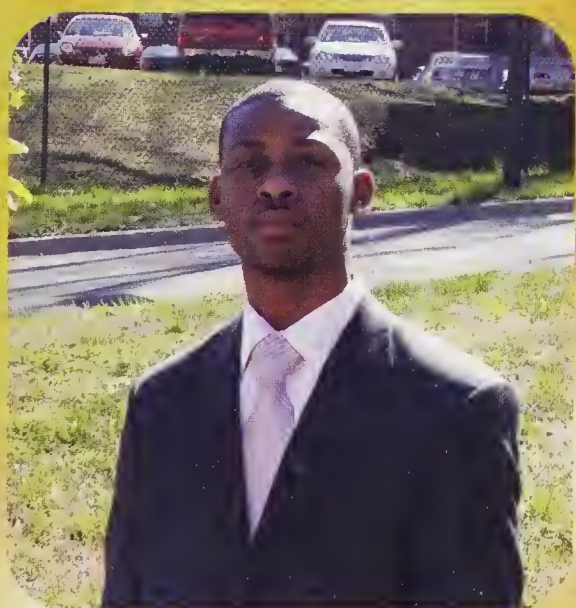

In Peace, Justice, Equality...Yours truly...B.A. Communication Arts, Class of 2007 of Johnson C. Smith University

Memory is a way of holding onto the things you love, the things you are, the things you never want to lose. ~From the television show The Wonder Years~

The Bull represents everything about our wonderful University, from the students, to the faculty and staff, to the alumni. As the quotes states memory is a way of holding onto things you love; I love my University, I love my experience here at Johnson C. Smith University. Memory is a way of holding onto the things that you are, or in which you have became; I am a Golden Bull and no one can ever change that. Last, memory is a way of holding on to things you never want to loose; and I never want to loose the memories that have been created at this wonderful institution; the family, the friends, the experience, the love, and most importantly the education. This is what we wanted to give to you in this years edition of the bull, memories in every picture, memories in every poem; never forget them because they are important.

Thank you for giving me the opportunity to share this memory with you.

"Being a staff member of "The Bull" has taught me a lot. Most importantly it has improved me in working cooperatively with others and meeting deadlines. When the students and faculty view the yearbook I hope it meets their satisfaction. "The Bull" took hard work and dedication. I would like to thank the Editor (Jamiylah), co-editors and staff for a job well done. I am glad that I was a part of the '06-'07 yearbook staff."

Serena Love
Layout Editor/Contributing Writer

"It has been a great year for "The Bull," in spite of the rough times, disappointments and neglects that occurred. Dedication and an open mind is what was important. Yearbook is fun but it's also hard work, which many don't realize until after they join the staff. It's not just about taking pictures and sticking them in a book - no, it's far more than that. This is a book that will reach so many hands, and will be around for decades that the content has to be carefully considered and approved and then designed in a fun, historical, and artistic way.

"The Bull" is a history book; it should reflect the times we have shared, the on-campus life we've lived and those memories we'll always cherish. It was designed and put together by hands that were thorough, mindful, trusted and always busy. The students who took an active part in this wonderful work sacrificed greatly. But it all was worth it...this book was truly made with lots of love for JC Smith and all of its students. I hope many will enjoy this book as much I enjoyed making it."

Last Wills & Testaments

Graduation is their end to this chapter called "The Undergraduate College experience" so that new things can be experienced. *FAREWELL...*

...and body...

For My Last Curtain Call @ JCSU, I, **Chris Coffee** of being of strong willed mind, body and unbreakable soul bequeath leave my determination, devotion, hard work, vision, and flexible leadership style to GBAC (Golden Bull Activities Committee). It's because of my three year tenure with the organization I have fully defined my college experience here at JCSU, as well as received the true meaning of a team, success, failure, dedication memories that will now forever be the key building blocks for my future no matter what I do. I would like to thank Ms. Jocelyn Biggs, who found me and brought me here to JCSU. In addition to, I would like to thank Ms. Kelli Rainey (My Boss Lady), who kept me here. She has been my favorite professor, she has taught me more about business and life then I ever can imagine, and no matter what, she has always been there for me to let me know when I was wrong and right. she is "My Support System." To Johnson C. Smith University I thank you. For you took me as a young, unfocused, boy and turned me into a strong spirited, mature, educated MAN. The experiences and memories given to me have been priceless from Café & gym parties, the numerous step shows, are many losing football seasons to our first winning season, are basketball battles with Livingstone (They were never a challenge to us), spade tournaments, B-Dub's, long validation lines, FDYI, and the Block all are stories that My children will hear about over and over again.

To all of my fellow Smithites the ones who came before and after me, I respect and believe in all of you, "Just remember the key to any success is to set goals, w/o them you have nothing to reach for." To my friends, the ones I've lost and gained throughout my I wish you all the best. Because of you I've learned the true meaning of friendship. I've gained knowledge from everyone who I ever spoke to. There are so many names that I need to name so I'll just say it like this, if you've ever been in a GBAC Meeting with me for 3hrs or more, hung out in suite 120, stayed up studying for Finance until 4am been on the phone with me to help me through certain situations no matter the time nor day, fought over who's driving who, talked on yahoo/facebook with, taken road trips with, and celebrated birthdays with thank you and I love you all! Words can't express how much you mean to me, I will always be indebted to you. -Chris "CEO" Coffee

From freshman year sanders third floor, to creeping in liston, smith and carter hall being bad and hanging out to senior year moving off campus. College was an experience that I will never forget through the hard times with friends, lame boys and just life as you take it. It's the end of JCSU, and I will look back at the memories of gym parties, those long nights of parting hard after or before 21...lol...I will never forget those days of being a student at Johnson C. ..If those walls could talk, what would they say? First they would say this is a crazy group of girls, from all the laughter, screams and cries. We held it down! Always remember these five saying: "Hey upstairs people", "Hey suitemate", "Hallelujah", "Stop playing with the Lord!" and "Boy bye!"

And last but not least, I cant leave with out saying anything to my best good friends.

Kiea, you came out of no where but you had a big impact on me. You have taught me so much. You taught me that it is never to late to learn something new or do something new. ...I do hereby declare...

THE BULL 2007

I, **Dawnita Gilmore**, of Johnson C. Smith University, being of sound and disposing mind and memory, do declare this to be my last Will & Testament as a result of my duration at JCSU. I would like to first thank some special people who have made my college career a great experience: To Ms. Biggs, thank you for the opportunity to gain the HBCU experience that I longed for years ago. To Ms. Rainey, thank you for your guidance, concern, and care as I matured into a woman, without you I would have been lost in this transition to adulthood. To Dania, my sister from way back, thanks for your friendship, care, sisterly love, and grasp on reality. Without you, no truths would be told. January 16, 2007

I, **Aisha Nicole Lide**, do hereby declare that my last will and testament is a tribute to all that has graced this historic campus before me. To our ancestors that built this great University from the ground up, I am truly thankful to have walked these historic grounds.

To my mother & father I say thanks for attending this University for if it wasn't for you I may have never been able to appreciate the greatness of Black Campus life. Thanks to my JCSU Faculty, and staff who are supportive and gave substance to my college education. Last but not least the entire student body that put me in the position to serve as University Queen for the 2006-2007 academic year. This role as Miss Johnson C. Smith University has been the pinnacle of my life thus far. I have forged many friendships throughout my reign. I pray that I have been an inspiration to all that has attended this University. My legacy here at JCSU has been written in the history of the University. I will forever be a permanent part of this great institution of higher learning. Starting my freshman year being apart of the first female track & field team that finished second in the CIAA Championships and the first to ever qualify for the NCAA Division Two National Championships.

To all of the Queen Aspirants, I wish you all the best on your journey to becoming Miss Johnson C. Smith University. Thank you to the 2006-2007 Royal Court for all of your support, and participation with community service activities, and appearances.

To the lovely ladies of Alpha Kappa Alpha Sorority Incorporated, I love you.

Last but not least to the JCSU Luv-A-Bulls, and Baby Bulls. I love you ALL! Words cannot express how much I have enjoyed my 4 years showing my gold and blue pride. I will never forget our laughs, crazy practices, floor scenes (lol), and many, many road trips. I know that you will continue the legacy of tradition, and always remember these two things, to be a Luv-A-Bull You've Got to be Smooth; and Ladies, Lets Make Moves! Thanks for the memories. Thank you Johnson C. Smith for being my hope, my guiding star, and my light unailing! I will miss you all!

I will never forget my first year. At sixteen, I had no name, but a number. "That sixteen-year-old." It was difficult being surrounded by guys who were afraid to talk to me because they thought the might go to jail. For this, I leave my teenage years to Smith. To my girls who left Smith, D'Niqua, Tia, Amina and Mo I love ya'll and wish you all could have experienced four years of Smith life. To my other half, I leave a piece of my heart. My partner in crime and I were side by side every day all day. I give you my freshman year. The parties, the fights, or wannabe fights, the bus rides (CATS and Greyhound), the parties, the "sticky bra bushes," the laughs and the talks. I love you, Qua! To my first, I give you my sophomore year. Hard times come and go, but memories will never fade. I am proud of the man you are becoming and will be. I, **Brynne Simmons** would like to first thank God for allowing me to make it this far as a Biology major. I would also like to thank my family for always encouraging me and supporting me, and my friends for being there for me throughout my years here at JCSU. I would like to specially thank my boyfriend Dana for always being there when I needed him. I remember when I first came here that I really didn't like anyone who I hang out with now. Sequel, Balensha, George I A, Toenette, and Conchica, I thought you guys were so loud and obnoxious in chemistry class. Terrance, Brittney and LyBerKim, I will never forget telling Dr. Champion to "tell those freshman to shut up", and he did. Some kind of way we ended up friends (I don't know how), but you have made me laugh throughout the years. Sequel remember that time you ran all the way from the block to the side of Greenfield (after running behind the union first). Balensha, remember those Liston days and the anonymous kiss. I will never forget my Jimmy and Cindy. And Jon, the funniest Sigma I know. Hey Balensha and Toenette, remember when we had to come get you from the movie theatre. Alicia the Fake Simmons, remember when you got me lost on our way back from the Pizza Hut on Freedom. I won't forget April falling in slow motion in the creek in zoology, and I won't forget my Islander. To my little sister and Felicia all I can say is you have made my life a living soap opera, a very funny one. I want my little sister and all of the class of 08 to be blessed and have great senior year. I am glad that I have made it this far, and to all the biology majors Sci Phi.. Molecule Atom.

To the **Pure Envy Step Team**, thank you for believing the the group and being strong and dedicated. I leave to title of President to whoever will take care of the team and build on what we worked so hard to get. To **Chad**, I will most definitely see you again, I just wanted to acknowledge your presence and thank you for your friendship. You've showed me the utmost respect and I love you for that. I do realize how fortunate I am to have you in my life. To **Jade**, wow Where do I begin? We've had so many memories together from dealing with psychos, to trips to the mall with no money. Oh, lets not forget about all the strange men. Thank you for making this college experience easier on my part with your friendship and laughter. You are truly a blessing to me. To **Bariah**, thank you for your inspiration and positive attitude. You definitely are a strong willed person, and that alone inspired me. To **Dr. Priest, Dr. Quick, and Professor Montsinger**, thank you for a priceless education in which I would not have received without attending Smith. Without you my journey at Johnson C. This Last Will Testament goes out to Brittney, Whitney, Rochelle, and Tiana. I just wanted to let you guys know that I'm going to miss you, and whenever you need me I'm only a phone call away no matter what the problem maybe. Over the years we have seen the ups and the downs but unfortunately we have found the way to make it pass all the negative things that have come our way. Its funny because people always say a good friend is there to the end no matter what happens, and I can truly say that you guys are my BEST FRIENDS and that I can never replace you guys in my heart nor in my mind with all the good times we have had, and even thou we may fuss and fight with each other we always find a way to come out on top. That is why I call us the **FIVE-HEART BEATS!**

Love Always, **Ashley Truesdale A.K.A. A.T. # 32**

To Aaron, thank you for all the support and inspiration that you have given me- from going back and forth home to empathizing with me when I never wanted to come back. I love you! To my parents thank you not only for the financial support but for the encouraging words along the way. The thousands of dollars that you have invested in me will not go to waste. To Brooke and Tony, I pray that you two will realize that I love you and that education will take you everywhere- so get one while our parents are still willing to pay. As for the rest of my family I cried every time it was time to go back to school for the first 2 ½ years, because I did not want to leave you but I knew I had to so that you could finally come visit me May 6, 2007. Thanks to everyone in the Science department. You all push so hard for us to do well and I want you to know that it is greatly appreciated. I'm over and out. -**Shannan White**

My experience at Johnson C. Smith University has been priceless and I would not have made it without Jesus Christ my lord and savior. There were many times I could have quit but he did not let me and gave me the strength to keep pressing. Another motivating energy in my life has to definitely be my family, especially my parents. My parents stopped at nothing to make sure I had what I needed to succeed. I am very appreciative to have both parents supporting me and being my number one fan. To my sister and brother thanks for the money, encouragements and long talks on the phone. Life so far has truly been a pleasure and I don't think I could have done it without you ALL. Nika,

Thanks for always being there for me through it all. From freshman year to senior year, you always had my back. We have had many trials in our college experience but we made it through. We crossed the long hard road to Sigma Gamma Rho Sorority, Inc. to another stage of our sisterhood. It has always been a pleasure to spend my time with you. Im glad we have finally ended this journey, so that we can move on to bigger and better things that awaits us in our future. Thanks for being the best sister in the world...

Love,
Crystal 'Monique' Shannon

Crystal,

This has been an amazing experience. I am so happy we could share it together. You know it has been a struggle, but we have also had great times here. It has prepared us for life after college. I would not trade it for anything in the world. Thank you for all you have done. Continue the success you have achieved at Smith, and dont let anyone stop you.

Love,
Nika

ISAIAH 9:6 FOR UNTO US A CHILD IS BORN

KeShaun,
We were so proud when the Lord rewarded us with you. I spent hours watching you sleep, dreaming great dreams of what your future would be. I knew you were special and pray you would be a blessing to the whole world. I want you to know how truly blessed you are. You are the first out of Four Generations to receive a Bachelors Degree in The Chase Family.

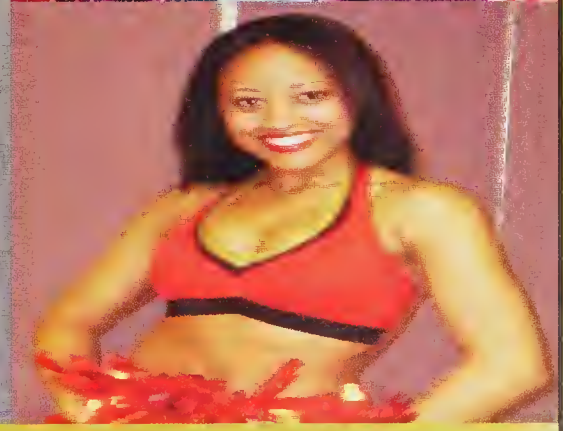

You've made us real proud daughter
Successful we knew you'd be
Whatever path you took in life
We knew you would succeed
We always knew you were special
You've proven this to be true
Not too many parents can be
As proud as we are of you
As you continue your way in life
Always remember to be true
To the things that you believe
In every thing you do
Congratulations to you daughter,
You've made us mighty proud
We can't wait to see you in that cap
and gown
So we could shout out loud, YOU DID IT!
Now you're headed for the business world
This is only the start
We're watching for you to continue to make your mark.

We Love You!
Mom, Dad and your 5 siblings

These past 4 years have raced by without stopping it seems. I remember the trips with you to visit, attend orientation, and the Big adventure of packing and going to start college. I guess every Parent is hesitant about sending their child away from home to attend school, and I believe it's due to what's called "The Fear of the Unknown". We all were scared but excited as well. This is no surprise that you're Graduating from college because dreams and goals are achieved all the time. I want to tell you with every breath that I have that " I'm the proudest Dad on the Planet" right now. It's always been yours to run with and you've crawled, stumbled, fell, got back up, and now you're running the race. Well it's over and along with God and yourself you've done what few have failed and some have attempted.

Congratulations KeShaun LaTrice

Love,
Daddy

The truth is, there's no better time to be happy than right now. If not now, when?

Work like you
don't need money,
Love like you've
never been hurt,
And dance like no
one's watching
Papa

May you have
enough happiness to
make you sweet,
enough trials to make
you strong, enough
sorrow to keep you
human, enough hope
to make you happy.
Love Mom

With Gods Blessing and the loving support of my Mom, Papa and Great Grandmothers I have thrived. Congratulations to Jade Roberta Russell---2007.

To our precious daughter,

Thanks so much for making us proud!

From the time you were two years of age Moe told me that I could not ask for a better child than you. He saw in you a well behaved smart child who had a bright future, needless to say he was very proud of you. When I told him of your accomplishments as you matured he expressed pleasure, as he would today if he were still with us. Brynne you embody all the values and morals that the Simmons family stands for: love of God and family, obedience to your parents, respect to all and most importantly to self, giving to yourself especially to family, integrity, honesty, and love. I have been proud and pleased to be your mother for quite some time now and expect that this will be for some time to come. Steve says congratulations on your first four years of schooling and pass the knowledge on particularly to your brother who especially needs it and keep up the good luck. Denzel says congratulations
